

Conner Hufnagel

(405) 397-0507 // conner.huf@gmail.com

I'm Conner Hufnagel, I'm a recent graduate with a degree in Computer Science.

Portfolio link: <https://conner-huf.github.io/Portfolio/>

I've got some examples of projects I'm really proud of in my portfolio, check it out!

SKILLS

Python, Java, C++, JavaScript, HTML, CSS, TypeScript
React, MongoDB, Express, AWS, Docker, Angular, Tailwind,
Supabase, Next.js, Node.js, Git
Front-End Developer Professional Certificate – Meta

EXPERIENCE

Full Stack Spotify Clone – Software Engineer

React, TailwindCSS, Supabase, APIs

- Designed a layout based on the Spotify music streaming platform using TailwindCSS.
- Created a database infrastructure using Supabase to store songs, users, and images for access.
- Implemented login modals, favoriting, song uploading, and music player functionality.

React Weather App – Software Engineer

React, HTML, CSS, APIs

- Implemented the OpenWeatherMap API to provide current weather information given a city.
- Designed a user-friendly and aesthetic UI to provide the user with a positive user experience.

Pygame Platformer – Game Developer

Python

- Developed mechanics like collision, gravity, and movement from scratch, without aid from a game engine.
- Implemented a graphical interface for the game using the Pygame library.

EDUCATION

B.S. Computer Science
Southern New Hampshire University
2023 - Summa Cum Laude
